- g. 1*
 2**
 3***
 4***
 5****
- h. ***** * * * * * * * *

Complete to write PAKISTAN

PF CS-Fall 2020

Define constants and use them in multiple print statements, first of all see example:

```
#define M "This is a dummy message\n"
int main(){
   printf(M);
   printf(M);
   return 0;
}
```

i. Define constant to represent horizontal line using hyphen sign and use constant to generate output:

```
| W E L C O M E |
```

j. Define constants to represent your name & address. Generate following output having your name and address on top & bottom:

Your Name
Your Address
Programming is fun.
I like Programming.
Programming needs practice and I am ready to do practice.
Your Name
Your Address
